COMPONENT LIBRARY

All markers are at true court scale (≈1.7 m on a 40 m court). Copy and paste directly onto any diagram — they will be proportionally correct.

PLAYER MARKERS (plain)

EQUIPMENT

LINES

ZONES / SCREENS

BODY SHAPE — shoulder-line pucks

Flat edge = shoulders, curve = chest. One shape — rotate it to show open / closed body shape.

VISION CONE — facing + field of view

Rotate the group: cone shows where the player faces and what they see. On a defender it doubles as a cover shadow.

ROTATION · All orientation markers face UP by default. Select → drag the rotation handle, or Format Shape → Rotation and type the angle (0 = up, 90 = right, 180 = down, 270 = left).

LONG CONES (right) are separate — no player attached. Drop one under any marker, rotate to aim, drag a corner handle to lengthen.

LONG VISION CONES (≈8 m, standalone)

SCANNING AWARENESS ZONE (180°, ≈5.5 m at court scale)

SCANNING AWARENESS · VISION CONE · BODY SHAPE

Scan zone (180°, dashed, very light) = the full area a player actively sweeps before receiving — peripheral awareness, not just facing direction.

Vision cone (70°, solid) = immediate focus and field of view. Scan zone + vision cone together show the difference between what a player checks and what they commit to.

COMBINED example (left): all three layers in one group. Rotate the whole group to orient the player. Use standalone or combined — each is a separate object.

TEAM A your team

TEAM B opposition

ONE-CLICK RECOLOUR — the whole system is theme-driven

Design → Variants → Colours → Customise. Accent 1 = your team, Accent 2 = opposition, Accent 3 = court lines. Changing one value restyles every slide at once — no selecting shapes. Body text stays black on purpose.

FULL COURT (40m × 20m)

HALF COURT (20m × 20m)

USAGE

Courts are grouped — one click selects the whole court. Copy and paste into any diagram zone, resize to fit. Ungroup (Ctrl+Shift+G) to edit individual markings.

All shapes are unlocked. Numbers inside markers are editable — double-click to change. To recolour: select shapes → Format Shape → Fill.

SESSION CONTROL BOARD

Time, load, tactical balance, rotations and the review loop on one surface. Plan it here, audit it here, seed next week here.

MICROCYCLE — where this session sits

MD-4

MD-3

MD-2

MD-1

MD

MD+1

TEMPO + LOAD TIMELINE (width = time)

Bars are minutes — drag a bar edge to your real timings. Diamonds = planned intensity: drag one and the curve stays attached. After the session, copy the diamonds, recolour grey, set actual — instant planned vs actual.

GAME-MOMENT FINGERPRINT

Where does this session actually live? Fill before you coach.

06

ACCUMULATED FOUL — 10 m

Free shot, no wall

TRIGGER
6th team foul onward

ROLES
1 [Insert role]
2 [Insert role]
3 [Insert role]
4 [Insert role]
5 [Insert role]

CALL / SIGNAL
[Insert call]

NON-NEGOTIABLE
[Insert the one detail that must be right]

SET PIECES + SPECIAL SITUATIONS — futsal-specific restarts and phases · 4-second restarts · flying GK powerplay · 10 m accumulated-foul shot · build diagrams from the Component Library

ON-COURT CARDS

Print this slide, cut along the dashed lines: four pocket cards, one per block, in session order. Three cues maximum per card — if it needs more words, it belongs on the plan, not on court.
